

SSAFA Forces Help Carer Support Scheme in BFG

Are you living in Germany and have at least one member of the family with an additional need and/or disability? Would you like someone to be able to offer your family low-level practical help, respite care and assistance?

If so the SSAFA Carer Support Scheme (CSS) is what you need - by using CSS Volunteers to help you out, the way in which a 'good neighbour' would.

CSS Volunteers are either Serving personnel or dependants of Service personnel, who have given their time to help on a SSAFA Forces Help 'Children with Additional Needs and Disability Holiday'.

CSS Volunteers undergo training before the holidays as well as a further mandatory training session including: Basic paediatric first aid, Additional needs and disability awareness, Confidentiality of information, Communication skills, Safety awareness, Dealing with different behaviours, Stress and its impact on families, and Safeguarding children.

The scheme can be accessed by either completing a referral form yourself, available from the Volunteer Development Manager who works at the Volunteer Projects Office in JHQ, or by speaking with your Health Visitor, Social Worker, GP or Army Welfare Service worker.
