

SCE Young People's 14-19 Survey

As part of a review of 14-19 provision in Germany and Cyprus, we are consulting on how important it is to you to be able to choose the same range of courses as you could in England. We also need to know what you think about some other aspects of provision for this age group. All responses are anonymous and will not be used for any purpose other than influencing the research and decision-making. The changes taking place in England are described at the end of the questionnaire.
